Education

08/2012 - 05/2015

Vocational Qualification in Business and Administration

Helsinki Business College

08/2012 -12/2015

Finnish Matriculation Examination

Töölön yhteykoulun aikuislukio

My studies were designed to support my other economics studies. I graduated in social sciences, mathematics, English and Finnish

Experience

01/2013 -

Restaurant Fonda Del Sol

Fonda Oy

A family run business where I have worked in the restaurant's kitchen and helped magement with IT- issues.

08/2018 - 10/2018

Restaurant Sea Horse

Sea Horse Oy

I've made a globally recognized restaurant's website and helped staff with IT- issues and social media usage.

01/2014 - 06/2017

Sportteri.fi

Sportteri Oy

Startup company to search for sports clubs online. I have been responsible for the development of the website, where the team has had up to 6 people.

06/2013 - 09/2013

Sup-board rental

SUP - Finland

I rented Sup boards at Töölönlahti, SUP-Finland. My job was to guide the customers through the use of the Stand Up Padle board and to open / close the rental house. Customers ranged from individual joggers to large groups.

Skills

Front-end developer

I design and code stunning websites and web applications. I know the best practices of the Web and I use fluently HTML CSS, SCSS, Javascript, ES6, React and Gatsby.js.

Backend developer

I make performant and secure web services and API interfaces, by using NodeJS, PHP, NGINX, Apache, MongoDB, MySQL, I use Wordpress, Drupal, Contentfull or Netlify CMS for content management. As Cloud service providers I use Amazon AWS or Digitalocean droplets.

Microsoft office

I'm fluent in using Microsoft applications Word, Powerpoint and Excel, as well as I know the document standards used in office work.

Photoshop, Lightroom ja Illustrator

Editing photos, logos, and vector graphics with Adobe's image editing software.

Data processing

Working safely with large dataset and data sources. eg. database migrations, editing web map data or automating image processing

Photography

I take high quality photos optimized for web and print, using Canon's system camera

Search engine optimization

I know how search engines crawl websites and I can do technical and content search engine optimization.
